Description

2018 (68 reg) Nissan NV400 2.3 dCi 130 BHP L3 H3 3500kg FWD, split compartment fridge / freezer with overnight standby. 170,000 motorway miles. One company owner from new with full service history and maintained regardless of cost.

Fitted with a GAH refrigeration unit with 1-phase overnight standby. The forward compartment is set up for frozen use, with the rear compartment separated by a bulkhead for chilled use. Both sections can be configured for fridge application if required. The standby facility allows the unit to be plugged in while the vehicle is not running, enabling temperature control during loading or when parked overnight.

Recently serviced. The bodywork is tidy for age and mileage, having been wrapped from new. Good tyres all round.

Please note there is a slight notch in the synchromesh between 1st and 2nd gear. This is reflected in the price. The vehicle drives, but the notch is noticeable on gear change.

£8,495 – No VAT.

PLEASE NOTE – TERMS & CONDITIONS APPLY. This vehicle is a part exchange clearance and does not meet the age and/or mileage criteria for our retail operation. Supplied strictly as a BUSINESS TO BUSINESS sale only (Self-Employed, Sole Trader, Sub-Contractor or Limited Company). The vehicle has NOT been mechanically inspected by us and is sold WITHOUT WARRANTY. We strongly recommend independent inspection prior to purchase. The selling price reflects its trade status, mileage and condition. No finance or part exchange available on this vehicle.
