Description

This 2022 (22 reg) Fiat Scudo Tecnico Crew Van, finished in White, is a versatile diesel van powered by a 2.0-litre Multijet engine, delivering 145 BHP. This long-wheelbase (L2H1) model comes in the Business specification with a 6-seat double cab, making it perfect for carrying both crew and cargo efficiently. With just 15,390 miles on the clock and one previous owner, this Euro 6 ULEZ-compliant van promises low emissions and reliable performance. The low mileage suggests minimal wear and tear, while the one-owner history indicates careful maintenance. Equipped with features for

comfort and convenience, the Scudo includes air conditioning, cruise control, Bluetooth connectivity, a bulkhead for cargo separation, and ply lining to protect the load area. Auto headlights, electric mirrors and windows, DAB radio, and PAS (Power Assisted Steering) round out the impressive specification, making this a fantastic option for businesses needing a practical and efficient crew van.
