Description

Offered here is a 2023 (73 reg) Ford Transit Connect 230 1.5 TDCi 75 L2 H1 Leader EcoBlue Fridge/Freezer Van, finished in crisp Frozen White and designed specifically for temperature-controlled transport. With its longer L2 wheelbase and economical 1.5-litre diesel engine, this fridge van is a reliable and efficient option for businesses that depend on maintaining product freshness.

The smart Frozen White exterior complements the compact yet practical body design, offering excellent manoeuvrability

for urban driving while still providing a spacious, lined refrigerated load area. Its low-profile stance and easy-access rear make frequent deliveries effortless, especially in tight city environments.

Inside the cabin, you'll find Bluetooth connectivity for hands-free communication, Electric Windows for convenience, and Power Assisted Steering (PAS) to ensure a light, responsive drive. The solid Bulkhead helps insulate the driver area from the temperature-controlled compartment, ensuring both comfort and compliance with refrigeration standards.

This vehicle has been professionally converted into a Fridge/Freezer Van, offering dependable cold-chain logistics for sectors such as food delivery, pharmaceutical distribution, catering, or floristry. It ensures your perishable goods are transported under precise temperature conditions, keeping quality and safety at the forefront.

Whether you're an independent business or part of a larger delivery network, this Transit Connect Fridge/Freezer Van is an excellent choice for dependable, chilled transportation.

Flexible finance options available — contact us today to arrange a viewing or to learn more.
