Description

Offered here is a 2020 (20 reg) Mercedes-Benz Sprinter 314 2.1 CDI 143 BHP L2 H2 Freezer Van, finished in Arctic White and professionally converted to deliver efficient, temperature-controlled logistics. Powered by a responsive 2.1-litre diesel engine and featuring a medium wheelbase with high roof, this refrigerated unit is ideal for perishable goods transport including food, drink, floristry, and pharmaceuticals.

The crisp Arctic White finish gives the van a clean, professional look suitable for any business fleet. Its slab-style

side sliding door ensures easy access to the chilled load area, while the Safe T Bar at the rear adds extra protection and peace of mind during loading operations.

Inside the cab, you'll find a Multi Function Steering Wheel, Cruise Control, Bluetooth connectivity, and Auto Headlights to support a smooth, connected, and efficient driving experience. The Electric Windows and DAB radio enhance convenience and driver comfort during long shifts or frequent deliveries.

The rear compartment is lined for hygiene and easy maintenance, and the van is equipped with an Overnight Standby feature — making it ideal for keeping contents chilled while parked at depots or delivery locations without engine power. A full-height Bulkhead ensures separation between the chilled storage area and the cab for optimal insulation and temperature retention.

This Sprinter Fridge Van is a reliable and versatile solution for businesses involved in temperature-sensitive logistics. Ready to work with finance options available — contact us today to arrange a viewing or for more details.
